The Business Way!

The business way to advertise is to take space by the year, take pains with your advertisements in making them attractive, and change them at least as often as once a month.

You may think there are seasons when you don't need to advertise.

We have never seen that time.

Use the dull seasons for looking over your stock and turning off that which is becoming out of style or unfashionable, and giving bargains.

If you have space by the year, it costs you no more, and you can make it profitable by converting unobtainable goods into money, and reinvesting the money in those things which are saleable.

Where is That Banner Now?

Greenough (Ind.) Review—During the last campaign the Democrats of this city displayed banners in their processions bearing this inscription:

VOTE FOR GREENOUGH, CLEVELAND AND GET \$15.00 PER WEEK FOR YOUR WEALTH.

A liberal reward will be paid for that banner at this office, and no question asked.

In 1872 out calls were \$5.16 per keg; in 1891 the price was \$1.35, and wire nails about the same—the duty being from 2 to 4 cents per pound, the price less than the duty.

The rates which are most clamorous for the repeal of the 10 per cent. tax on State bank issues are among those that were foremost in scaling and repudiating their debts a few years ago.

On political and economic questions Col. ROBERT G. INGERSOLL is a keen observer. He was recently asked whether he thought the new Congress and the President would redeem the pledges made in the Chicago platform, and replied: "The Democratic Congress will find that it will be called upon to raise several hundreds of millions of dollars in some way, and in order to do this it cannot unduly interfere with the Tariff without reducing the revenue or destroying manufacturing. Consequently there will be a great deal of talk and nothing done. The duty on articles is the result of a combination covering the entire country. If Louisiana wants the Protection of a sugar bounty she must help Pennsylvania about her corn, and so it goes through all the States of the Union. I am a Protectionist. I believe in multiplying the industries of the country, in developing the brains of the people, and nothing will do that like fostering the development of those industries of which our great land has but dimly conceived thus far."

Seven times since the war Tariff was passed have the Republicans revised or amended it in general bills. They have been persistent. They have been always, with one exception, the duties have gone up, up, up! The average duty of 1860 was 20 per cent. In 1868 it was 24 per cent. In 1890 it was 28 per cent. In 1892 it was 32 per cent. In 1894 it was 36 per cent. In 1896 it was 40 per cent. In 1898 it was 44 per cent. In 1900 it was 48 per cent. In 1902 it was 52 per cent. In 1904 it was 56 per cent.
